THE EDITORIAL GAVE PRAISE:

This last year has ended with excellent academic results including eight entries to Cambridge University one of which was a Retrospective Scholarship to Churchill College. I have no doubt that the quality of Academic achievements will be just as high when we are a Sixth Form College, but judging from the results of Grammar Schools turned 'College' the games will not be of the same high standard — even if team games are in fact played — as so many 6th Form entrants may not be athletically interested or may come from schools where games were a mere sideline.

LATER, ALTHOUGH NO PRIZES WERE LISTED, WE READ:
